Subject: Position limits CTFC Charman Gary Gensler!

Dear Sir!

I like to thank you for bringing up subject on the agenda again!

I think it is urgent that you take care of this matter regarding position limits physical commodity.

It looks from my point of view more like fractional banking.

I think the only way to solve this is that lie position limits on physical commodity must be backed up 1:1 and with full transparency.

Med vänlig hälsning/Best Regards
